MONDAY

## Adventure Cinema Club

Ready to be inspired by the most daring athletes and wildest adventures on the planet? In Adventure Cinema Club, we dive into epic true stories of ultra-running across deserts, climbing towering cliffs, biking in the Arctic, and much more—all through thrilling short films and documentaries. Each week, we'll watch part of an adventure film and explore the big questions it raises: What drives people to push beyond their limits? What does real bravery look like? Could you take on a challenge like that? With time for open discussion, creative activities, and personal reflection, this club is about more than just watching—it's about discovering your own inner adventurer. ❤️ No gear needed—just your curiosity and imagination 🗨️ Come for the films, stay for the conversation 🔥 Be moved. Be motivated. Be part of the adventure.

### *Where it all leads...*

In our final session, each student will have the chance to share their own "Adventure Vision"—a short, personal reflection on the kind of adventure they'd like to pursue, big or small. Whether it's climbing a local hill, running their first 5K, learning to skateboard, or exploring a new passion, it's a chance to celebrate individual goals and the courage to chase them.

## Aeronautics Club

Flying Start Challenge is a STEM competition for local schools in the South West of England. This year the challenge is being run and sponsored by the aerospace engineering company Airbus. The aim is for teams composed of four students to design, build and test a model glider that they will present at their regional Fly-Off, where each team will have the chance to fly their glider against schools from the same region. Teams will be judged on various criteria such as the distance flown, innovative design, use of recycled materials, flight physics, and more which will be detailed by the students in a poster presentation. Winning teams from each regional Fly-Off get the chance to compete at the Grand Final. Every student participating in the FSC will also receive from the committee a certificate in Glider Flight Engineering.

### *Where it all leads...*
