

Geography

Why this course is right for you

If you have ever wondered how vast natural landscapes came to be as they are, or considered how global geopolitics have evolved to the situations you currently see on the news, you should consider studying Geography at A Level.

The course provides you with knowledge and understanding that is essential for any citizen of the planet in the 21st century. Through a range of exciting topics, you will understand the nature of physical and human Geography whilst unpicking the debates surrounding contemporary global challenges.

Course Content

Exam board: Edexcel

Head of Department: Layla Bray

Topics covered

Subject Entry Requirements

Grade 5 GCSE Geography

Grade 5 GCSE English

Grade 5 GCSE Maths

Beyond A Levels

The course will equip you with the skills necessary for success in higher education and the world of work. Geography is a multidisciplinary subject in a world that increasingly values people who have the skills to work across the physical and social sciences.

Going further

This course prepares you for careers in environmental engineering, politics, archaeology, planning and development, international relations, conservation, and much more.

"It's the little things citizens do. That's what will make the difference."

Wangari Maathai
